If the respondent fails to satisfy the mandatory submission requirements within the Rectification Period, its quotation will be rejected. The mandatory submission requirements are set out in Section C of the RFQ Particulars (Appendix D).

2.3 Stage II – Evaluation

Stage II will consist of the following two sub-stages:

2.3.1 Mandatory Technical Requirements

For the purposes of this RFQ, the term "Conflict of Interest" includes, but is not limited to, any situation or circumstance where:

- (a) in relation to the RFQ process, the respondent has an unfair advantage or engages in conduct, directly or indirectly, that may give it an unfair advantage, including but not limited to (i) having, or having access to, confidential information of the Government in the preparation of its quotation that is not available to other respondents, (ii) communicating with any person with a view to influencing preferred treatment in the RFQ process (including but not limited to the lobbying of decision makers involved in the RFQ process), or (iii) engaging in conduct that compromises, or could be seen to compromise, the integrity of the open and competitive RFQ process or render that process non-competitive or unfair; or
- (b) in relation to the performance of its contractual obligations under a contract for the Deliverables, the respondent's other commitments, relationships or financial interests (i) could, or could be seen to, exercise an improper influence over the objective, unbiased and impartial exercise of its independent judgement, or (ii) could, or could be seen to,

compromise, impair or be incompatible with the effective performance of its contractual obligations.

3.4.2 Disqualification for Conflict of Interest

The Government may disqualify a respondent for any conduct, situation or circumstances, determined by the Government, in its sole and absolute discretion, to constitute a Conflict of Interest as defined above.

For purposes of this quotation, the term "Government Official" shall mean and include any official, public officer or employee of the Government, as well as an official or employee in the judicial, legislative, or military, anyone acting in an official capacity for the Government, or any immediate family member of such persons. Without limiting the generality of the foregoing, the respondent represents, warrants, and covenants that it has not and will not take

any action that would cause the Government or anyone acting on their behalf to violate or be subjected to penalties under *The Bribery Act 2016*, or the applicable anti-corruption laws of other countries.

The respondent acknowledges and agrees that in the event that the Government believes, in good faith, that the respondent has breached this section, the Government shall have the right to immediately withdraw and terminate this opportunity and terminate any or all other agreements with the respondent.

3.6 Procurement Process Non-Binding

3.6.1 No Process Contract

This RFQ is a request for quotes only and participation in this RFQ is not intended to create legal obligations between the Government and any of the respondents or their representatives. For greater certainty and without limitation:

- (a) Participation in this RFQ will not give rise to any preliminary contract or collateral contract;
- (b) No respondent shall have any claim for any compensation of any kind whatsoever (whether in a contract, tort, law, equity or otherwise), as a result of participating in this RFQ, and by submitting a quotation each respondent shall be deemed to have agreed that it has no claim against the Government;
- (c) The decision to award or not to award a contract to any respondent is at the discretion of the Government. The Government shall have no liability to any respondent with respect to the awarding of contract or the failure to award a contract to any respondent. Respondents acknowledge that the respondent that submits the quotation with the lowest price might not be awarded a contract.

3.6.2 No Contract until Execution of Written Agreement

This RFQ process is intended to solicit non-binding quotations for consideration by the Government and may result in an invitation by the Government to a respondent to enter into the Agreement. No legal relationship or obligation regarding the procurement of any good or service will be created between the respondent and the Government by this RFQ process until the execution of a written agreement for the acquisition of such goods and/or services.

3.6.3 Non-Binding Price Estimates

While the pricing information provided in quotations will be non-binding prior to the execution of a written agreement, such information will be assessed during the evaluation of the quotations and the ranking of the respondents. Any inaccurate, misleading or incomplete information, including withdrawn or altered pricing, could adversely impact any such evaluation or ranking or the decision of the Government to enter into an agreement for the Deliverables.

3.6.4 Cancellation

The Government may cancel or amend the RFQ process without liability at any time. Cancellation may occur, for example, if:

- (a) where no qualitatively or financially worthwhile offer has been received or there has been no valid response at all;

- (c) exceptional circumstances or force majeure render normal implementation of the project impossible;
- (d) all offers exceed the financial resources available, or are otherwise inconsistent with the principles of economy, efficiency and effectiveness; or

The publication of a procurement notice does not commit the Government to implement the programme or project announced.

3.7 Governing Law and Interpretation

These Terms and Conditions of the RFQ Process (Part 3):

- (a) are intended to be interpreted broadly and independently (with no particular provision intended to limit the scope of any other provision);
- (b) are non-exhaustive and must not be construed as intending to limit the pre-existing rights of the parties to engage in pre-contractual discussions in accordance with the common law governing direct commercial negotiations; and
- (c) are to be governed by and construed in accordance with the laws of Bermuda applicable therein.

APPENDIX D – RFQ PARTICULARS

A. THE DELIVERABLES

Mobilization

Mobilise, including all preparatory work and operations necessary for the movement of personnel, equipment, supplies, and incidentals to the project site. Establishment of temporary facilities necessary for the work. Premiums on insurance for the work, and for other operations performed or costs incurred before the beginning of the work.

General Conditions / Preliminaries, including maintenance of site facilities for the duration of the works and site safety. Any other operations performed or costs incurred for the duration of the works necessary to satisfy the Construction Specifications, but which do not form part of it.

Site Preparation and Traffic Management

In preparation of works, the site is to be cleared of overgrown vegetation that may hinder the project.

The contractor is to establish a working site boundary that maintains vehicle access for both Bridle Hill and for the residents to the rear of No. 31 Middle Road.

Due to no alternative routes for surrounding residents, road closures are to be eliminated/minimised as far as possible by the contractor. If required, the contractor shall give the Ministry of Public works 3 weeks notice of lane closures, to allow adequate time to publish a Road Traffic Notice.

Investigation Phase

The contractor is to allow for and schedule an investigation phase within the project program that includes a minimum of two No. trial pits (as shown in the contract drawings) to better understand the site conditions.

The contractor is to provide a photographic survey of the trial pits, which is to be issued to the MPW engineer leading the project to confirm design assumptions.

Within the investigation phase, third party services will be present on site to review the utilities expected to be discovered within the site footprint. The leading MPW engineer will organise and communicate with utility personnel, however, it is the contractor's responsibility to allow for and accommodate third party attendance within their schedule of works.

Excavation

Following the investigation phase and not before confirmation of the design from the MPW Engineer, the contractor is to excavate the area to the extents and levels shown on the contract drawings.

The first layer of the dry-stone wall is to be demolished. Excavation of both the dry-stone wall and the ground is to be the minimum necessary to allow construction of the new retaining wall.

Contractor is to confirm that no services are present in the area of excavation.

See Annex C - Bridle Hill Retaining Wall Drawings Rev03

Construction of Sheet Pile Retaining Wall

Install sheet piling into excavated trench as per drawings.

Due to the sensitive nature of the vulnerable dry stone stack wall, hammer driving of sheet piling is not permitted.

Installation of sheet piles are to be done by hand and/or light machinery. The use of a crane is not permitted due to overhead utilities.

Tie backs are required to provide restraint to the top of the proposed sheet piling retaining wall. The contractor is to install these by either;

- Saw cut a channel through Bridle Hill and lay ties down.
- Drill under Bridle Hill roadway.

Whichever method is chosen, Bridle Hill is to remain open, and works are to be arranged and coordinated to accommodate passing traffic.

The contractor is welcomed to propose alternative methods to install the tie restraints to the MPW Engineer leading the project.

The excavated trench is to be filled with mass concrete and adequately vibrated to fill all voids on both sides of the sheet piling.

Backfill and Site Restoration

The contractor is to restore the site to its prior condition by covering over wall footing with adequate fill material and asphaltting over.

Any and all utilities within the excavation footprint that were relocated during excavation are to be set in their final position and filled over.

Between the old dry stone stack wall and the new sheet piling, the contractor is to backfill and adequately compact as per the notes within the drawings.

Site Clean Up and Demobilization

Demobilize including removal from the site of all plant, equipment, waste and facilities brought to the site to facilitate the works, but which do not form part of the Works. Any other operations performed, or costs incurred before and for the duration of the works necessary to satisfy the Construction Specifications, but which do not form part of it.

B. MATERIAL DISCLOSURES

Excavation

A previous on-site investigation was carried out to discover the construction of Bridle Hill. Removing a portion of the dry-stone wall revealed that the sloped gradient was primarily fill material. No sound rock was discovered.

The contractor is to be aware that there are risks present to the structural integrity of the roadway and the dry stack wall due to any nearby excavation. Suitable health and safety procedures are

to be followed and the contractor is welcomed to propose temporary shoring to maintain structural integrity.

See Annex E - Photos from Intrusive Investigation

Construction of Sheet Pile Retaining Wall

Specific Fibre Reinforced Polymer (FRP) sheet piles have been proposed, as described in the drawings. If unavailable, the contractor is to propose alternatives to the MPW Engineer leading the project for review and approval.
