Contents:

Part 1 Questions (Q) and Government Responses (R) - 1 page

GOVERNMENT OF BERMUDA
 Ministry of Public Works
 Department of Works and Engineering

Part 1 - Questions (Q) and Government's Responses (R).

	TENDER DOCUMENT REFERENCE	ANNEX	ISSUE	QUESTION	ANSWER
1	RFI Package			For the consultant engineer, is it required to have a Bermuda registered professional engineer on staff?	No this is not required
2	RFI Package			Is there a budgetary estimate for the construction of the two bridges as currently conceptualized in the RFI Information (Moving Bermuda Forward Document)? If so, what are the current budgetary values given for the construction of each of the bridges?	The estimates will remain confidential as we move towards a competitive procurement process.
3	RFI Package			Does the Gov't of Bermuda have a repayment plan conceptualized? a. Where will the revenues come from to repay the anticipated construction lending/financing? b. What is the anticipated loan repayment process? c. Will there be bonding available to guarantee the financing?	All financing options are currently being explored internally.
4	RFI Package			Considering the questions above and the future development of a financial model, would the Gov't of Bermuda be open to receiving alternative bridge design concepts that would potentially be less expensive to build, maintain, and finance?	No, not at this time.
5	RFI Package			We are looking at partnering up for this project with other companies. In case a joint venture team of companies, formed after the deadline of this RFI, would be interested in the project after the deadline of this RFI could the Government of Bermuda share contact details we could reach out to?	Please wait for an official Request For Proposal (RFP) to submit further information.

Note: Amendment/addenda will be posted at <https://www.gov.bm/procurement-notice>. Respondents should visit the Government Portal website on a regular basis during the Procurement process.
