

Re: RFP MNS HEAD 83-34

The following addendum supersedes information contained in the Instructions to Bidders issued for the RFP to the extent referenced. This Addendum forms part of the RFP documents and will be subject to all of the conditions set out in the contract conditions.

This Addendum # 5 contains 1 page.

A. Bidder's Questions (Q) and Government's Responses (Bold R).

Q1. Will a 3 watt P25 solution be acceptable? If so, can the answer to Question 4 in Addendum 3 be applied to P25 solutions as well as TETRA? If the answer doesn't extent to P25 but will be acceptable can we get it added to an addendum?

R1. Alternate solutions will be accepted in proposals as long as the guaranteed coverage and user operational needs are met. Examples are alternate technologies, lower power and different frequency bands.

Q2. Submit questions to your answers provided on 9 Nov – the answers you provided have generated a number of additional questions

R2. Additional questions will be received ONE additional time. The deadline for final questions will be 6 days (13 December 2017) after the publication of this addendum.

Q3. Deadline extension to 28 February 2018 – given the amount of detail required and receipt of the first round of answers only last week, we confirm our request to extend deadline to submit our bid to 28 Feb 2018

R3. The Submission Deadline has been extended to 4PM AST, February 28, 2018

END OF ADDENDUM #5
